

Over the past several years, we began to dream big and re-imagine the possibilities for people with Down syndrome. We began designing services to address the lifespan needs for those we serve, from birth through late adulthood. **In fact, we doubled-down on our focus with a goal to provide life-changing support and services that will enable people with Down syndrome to live to their fullest potential.** With the recruitment of our specialized team, along with our determination to provide lifespan services, we found that we had outgrown our current facility.

With the purchase and renovation of the building adjacent to us, we will now be able serve people with Down syndrome of all ages—in one, convenient location!

Services and Resources for Every Stage of the Journey

Through comprehensive, community-driven services and resources, our goal is to prepare people with Down syndrome of all ages for a meaningful, productive, and fulfilling life. We're your trusted partner for every step of the journey.

Our customized services are designed to fit the unique needs of every individual with Down syndrome and support the entire family with education and resources.
